---

Eric & Kristine,

So I'm hearing something a little different from each of you. Do you both agree that it's OK to exclude partners for the 1st couple of SC mtgs & then to open them up to partners as described in my draft e-mail to Cinde at EI. Let me know.

XXXXXXXXXXXXXXXXXXXX

*Cinde,*

*We initiated monthly PH Source Control meetings last month. DEQ & EPA have a number of issues we'd like to work out in 9/06 & perhaps 10/06 meeting. After these initial meetings, we want to focus on:*

- 1) integration of upland SC & in-water RI/FS,*
- 2) SC timeline & schedule, &*
- 2) SCDs at individual sites.*

*Once we get thru these 1st couple of initial meetings, we'll invite all EPA partners to all the monthly meetings.*

Hi Jim and Matt,

I have an Upland Source Control meeting on my calendar for 9/21. Jennifer & Jean mentioned that during the managers meeting or TCT call that there was some discussion about the timing of the meeting – has that been changed to the afternoon?
